About ADFA.....

The Studio was established in 1977. Our first priority is that the student receives the knowledge of dance techniques and styles, as well as, the emotional qualities and confidence to perform.

The ADFA faculty always displays: hard work, respect, and self discipline. Our goal is to instill qualities in our students that will help them to develop a love for dance, an appreciation of the arts, and success in any career they may choose.

While many ADFA students have successfully pursued dance as a career we also offer exciting programs for those students seeking dance for fun and recreational purposes as well!
